Multiply the total square footage under roof by the amount in the column for occupancy classification (defined in Chapter 3 FBC) and design type of construction (defined in Chapter 6 FBC). The higher of the calculated amount or the actual cost to build is then used to determine the permit fee from Appendix B. This table is the minimum valuation used. Zero value indicates not allowed.

- a. Private garages use utility, miscellaneous
- b. Unfinished basements (all use group) = \$15.00 per sq. ft.
- c. For shell only buildings deduct 20 percent
- d. N.P. = Not permitted

\$50,001 to \$100,000	\$260.00 \$230.00 for the first \$50,000.00 plus \$4.00 \$3.50 for each additional thousand or fraction thereof, to and including \$100,000.00.

\$500,000 and up	\$1,660.00 \$1,480.00 for the first \$500,000.00 plus \$2.00 \$1.75 for each additional thousand or fraction thereof.
Building Valuation Data	Type of Construction: See Chapter 6 of Florida Building Code
Type I & II	Totally non combustible of metal, concrete or masonry
Type III	Exterior Walls - Non-combustible/roof and interior non-bearing walls can be combustible
Type IV	Heavy timber
Type V	Combustible roof and walls, generally wood framing

Fire resistance of members is classified as either A or B according to Table 601 FBC. Required fire resistance is determined from Table 503 along with any allowable height and area increases from Chapter 5.

The **commercial plan review fee** is calculated at 50% of the permit fee determined above. Residential plan review fee is \$50.00

Example: Improvements within the building footprint of \$221,200.00.

1. Round up to \$222,000.00
2. \$460.00 for first \$1,000,000.00 plus \$122.00 x \$3.00 = \$826.00 permit fee
3. 50% of \$826.00 for plan review = \$413.00
4. 2.5% state surcharge for total of permit fee and plan review fee = \$20.65
5. Total charge is \$1,276.17

Impact fees may apply in many cases, but will vary. Please call (850) 248-8350 for charges regarding impact fees.

The permit fee is determined based on the higher of the actual contracted price or from the Building Valuation Table for design type of construction and occupancy classification.

If an applicant uses a private provider for inspection services a 25% discount will be applied to the corresponding building permit fees.
