Prospective Respondents

**RE: Addendum #1 22-70 Design Services for the Bay County
Redwood Avenue Drainage Project M0015**

Please accept this as Addendum No. 1 for the above referenced solicitation.

The following questions have been received. The County's answers follow in **bold**.

- 1) In the RFQ for the Redwood Avenue Drainage Project it mentions MBE 10% and WBE 5% participation goals in terms of construction cost. Do those goals also include the design portion of the project? **The goals set for MBE and WBE are for the overall program and not necessarily specific to design.**
- 2) If the grant proposals were originally written by an outside firm, can you please tell us the name of the company that wrote it? **The grant application was prepared by Bay County with assistance from CDR McGuire.**
- 3) On page 39 of 132 (maybe a typo error), '30" drainage easement' is shown on this page-is this 30-feet to confirm, and same page 'Exhibit 2' is missing on the RFQ? **Drainage easement is 30 feet. Exhibit 2 starts on page 46 of 132.**
- 4) On page 41 of 132, '.. design built team shall ...' please confirm that this is design only scope for phase 1. **Correct, Phase I is design only.**
- 5) This part of the stormwater system seems to be the last segment of the outfall system. Do you have any available drainage/watershed study that contributes to this outfall? If so, how can we get a copy of the drainage study? **This is a pipe replacement project. Should drainage study be required, it will be made available during design phase.**

All respondents shall acknowledge receipt of this addendum by signing and submitting, with their bid, the addendum acknowledgement form included in the Bid package.

Regards,
Scott Nabers
Contract Administrator
