Prospective Respondents

**RE: Addendum #5 23-10 Traffic Signal Mast Arm Hardening Project
HMGP 4399-119-R**

Please accept this as Addendum No. 5 for the above referenced solicitation.

**For clarification to Addendum # 3 in regards to utility relocations
timeframe and costs:**

The utility owner will be responsible for any costs associated with the relocation of their facilities. However, the County is expecting that the awarded Vendor will exhaust all efforts to exercise ingenuity and creativity to construct the project in consideration of the existing utilities and within the available right-of-way. Ideally, all existing utilities will remain in place, through utilization of innovative strategies such as those identified in Addendum 3.

Change Orders may be issued after project commencement. Any Change Order requests for additional time or costs will need to follow the County's general terms and conditions as outlined in the solicitation and awarded contract. Change Order requests will be considered by the County and a determination will be made after discussion with DEO and the awarded Vendor.

Regards,

Karen Grindle
Chief Procurement Officer
