Prospective Respondents

RE: Addendum #3 25-18 Sherman Ave. Improvements 11th street to 15th street.

Please accept this as Addendum No. 3 for the above referenced solicitation.

The following questions have been received. The County's answers follow in **bold**.

- The typical sections do not address what OBG group is to be placed beneath the driveways. If we delete pay item 286-2 how will the excavation and base material be paid for at the driveways. Shouldn't it be replace with 286-1?
- From station 101+83 Rt to the intersection at 15th street the typical section only shows stabilized subgrade and base out to the edge of the 8' paved shoulder, yet the cross sections appear to show base beneath the driveway portion extending to the right of way. Wouldn't this have been covered under the deleted pay item 286-2 and need to be addressed elsewhere?

If any base work is needed for driveways, it can be accomplished with the other pay items that are remaining.

All respondents shall acknowledge receipt of this addendum by signing and submitting, with their bid, the addendum acknowledgement form included in the Bid package.
