Multiply the total square footage under roof by the amount in the column for occupancy classification (defined in Chapter 3 FBC) and design type of construction (defined in Chapter 6 FBC). The higher of the calculated amount or the actual cost to build is then used to determine the permit fee from Appendix B. This table is the minimum valuation used. Zero value indicates not allowed.

- b. Unfinished basements (all use group) = \$15.00 per sq. ft.
- c. For shell only buildings deduct 20 percent
- d. N.P. = Not permitted
