

St. Andrew Bay RMA

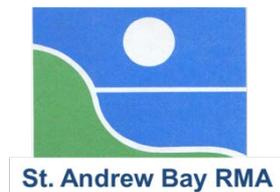

Bay PRP 2014-040

Identifying the cause of beach advisories

Linda Fitzhugh, President of RMA

Why do some beaches receive advisories?

- **RMA proposes to identify the cause of fecal coliform contamination at Carl Gray Park and Beach Drive**
- **Community benefit: Identifying the source of contamination will give our leaders the information they need to solve the problem of beach advisories**

Programs:

Baywatch

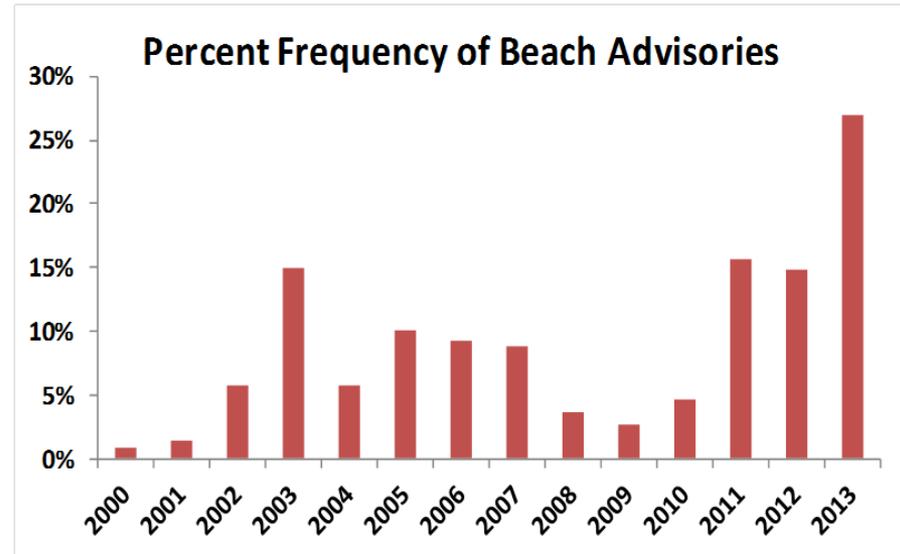

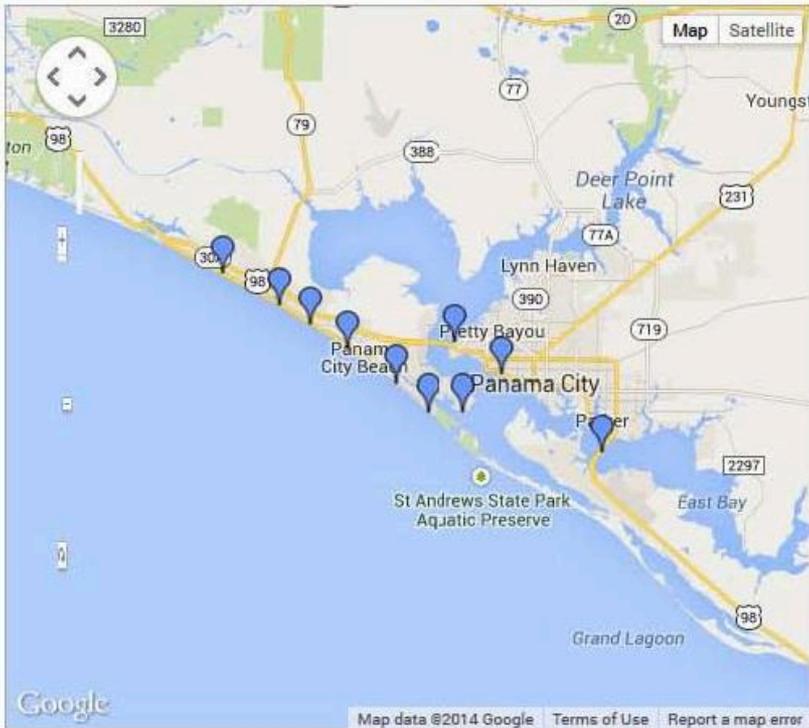

Turtlewatch

Seagrass/Scallop/Shoreline Restoration

Beach advisories could hurt tourism
