

BAY COUNTY' S STORMWATER MANAGEMENT

- Overview
- Existing County Stormwater Management Plans
- Other St Andrews Stormwater Management Plans
- Other Initiatives
- Conclusion

OVERVIEW

Bay County Stormwater Management

- **1994** Bay County developed its 1st Stormwater Strategic Plan
- **1997** Bay County developed its 1st County Master Drainage Plan
- **Specific strategies, goals and objectives with recommended project priorities for Unincorporated Bay County**

Other St Andrews Stormwater Management Plans

- 2000 St Andrew Bay Watershed SWIM Plan
 - Sand Hills Lakes, Deer Point Lake and St Andrews Bay Priority Watersheds
 - Retrofit Stormwater Infrastructure
 - Assessment and Restoration of East Pass Closure
 - Buffer Zones for Wetlands
 - Sand Hills Lake
 - Watson Bayou Restoration
 - Deer Point Lake Basin Program
- 2009 St Andrews Bay Stormwater Management Plan
 - Data collection and Evaluation
 - Stormwater Management Options (Subbasin Prioritization and Dirt Roads)
 - such as Dirt Roads
 - Basin Planning

What can we do about the bigger issues? How can we contribute?

Northwest Florida Estuaries and Watersheds Proposal

- Application submitted for Counsel Selected Restoration Component (Bucket 2)
 - Comprehensive SWIM Plan Updates
 - Project Funding
 - Importance of coordinating and concurrently updating plans; ultimately engaging and leveraging a number of different funding sources.

CONCLUSION

- Master Plan and Strategic Plan are Road Maps
- Specific for Unincorporated Bay County
- Complement other regional plans
- Time for an update
