PURPOSE

The Board of County Commissioners has identified the Purchasing Department as the agency responsible for coordinating the County's central procurement system. The central procurement system promotes efficiency, economy, and fair and open competition in an effort to reduce the appearance and opportunity for favoritism or impropriety, and to inspire public confidence that Purchase Orders and Contracts are awarded equitably and economically. It is essential for effective and ethical procurement that there be a system of uniform procedures, utilized by all personnel, that establishes basic guidelines and procedures which regulate procurement activities, contract management, and the resulting distribution of funds. The foremost objective of the Purchasing Department is to abide by, uphold, and adhere to the Procurement Code and Procurement Manual to guard against the misuse or misinterpretation of those rules and regulations.

This manual provides guidelines to Bay County Departments and Divisions for following the Procurement Code and the Procurement Manual.

Administrative changes or processing procedure portions of this manual may be amended when required by changes in law or minor procedural changes, i.e. flow of documents, internal department procedures, etc. with the review and concurrence of the Chief Procurement Officer, County Manager and the County Attorney.

- 2) Activities: These guidelines apply to the purchase/procurement of all materials, supplies, services, construction and equipment except as specifically exempted herein.
- 3) State of Emergency: In the event a local state of emergency is declared, all provisions of the Procurement Code, except Section 2-116, and this Procurement Manual are automatically suspended with respect to procurements that are necessary for the response to and recovery from the emergency condition for so long as the local state of emergency declaration is in effect.

If the county manager has determined that a real or apparent conflict of interest has occurred, disciplinary action, at a level consistent with the nature of the event and at management's discretion, will be taken to ensure that the conflict is eliminated and that the county is not at risk for reoccurrence. DESIGN-BUILD CONTRACTS

1. Use of Design-Build Contracts

The Requesting Department will determine if the design-build method is appropriate for a particular requirement subject to approval by the County Manager. In determining whether design-build or contracting separately for professional design and construction services is in the best interest of the County the following factors should be considered:

 - 3. Review and Evaluation
The Evaluation Committee shall review and evaluate all submittals that have been received prior to the announced deadline. This evaluation shall include a determination that the firms submitting proposals meet the design-build firm definition. Qualifications of the firm and project manager shall be considered for the design team as well as the construction team. The committee shall select no fewer than three design-build firms as the most qualified, based on the qualifications, availability, and past work of the firms, including the partners or members of the firms.

 - 5. Design-Build Contract Award
The Evaluation Committee shall submit a recommendation for award to the BCC for selection of one firm and two ranked alternates, and approval to negotiate and award a design-build contract with the selected firm, provided the final negotiated price does not exceed the project budget. 1. a finding that only one qualified source is available;
2. a statement that a search for alternative sources has been made, i.e., a request for a proprietary item does not justify a sole source procurement if there is more than one potential bidder for the item; and
3. a justification of why the only source is acceptable to fit the needs of the using Department.

Purchasing may negotiate with a single/sole source supplier under one or more of the following circumstances:

1. The needed supply or service is available from only one source/brand as determined by the requesting Department's written justifications.

This exemption shall be in effect through any such circumstances, including the clean-up and repair of property following such an event.

Departments are responsible for understanding additional requirements for Federal and/or State reimbursements related to emergency purchases.

The County may enter into and utilize Mutual Aid Agreements as provided in Chapter 252, Florida Statutes in the event of emergency situations. The County Manager shall be authorized to invoke the terms of the Mutual Aid Agreement.

RENEWAL AND EXTENSION

Contracts for commodities or contractual services may be renewed for the original term of the contract or for a period that may not exceed 3 years, whichever period is longer. The renewal may be divided into increments (e.g., three one-year renewals), may be for a complete term (e.g., one renewal for three years or the original term of the contract), or a combination thereof (e.g., one two-year renewal followed by a one one-year renewal). Renewals are pursuant to contract terms specifically providing for such renewal. Contract renewal options approved by the BOCC may be executed by the County Manager.

Contracts may be extended one time for a period not to exceed 6 months. The extension is subject to the same terms and conditions set forth in the initial contract.

TIE BIDS

In cases of tie bids (monetary as well as all award criteria identified) preference shall be given to the bidder with a drug-free workplace program. If none or all of the tied firms have a drug-free workplace program, award will be made based on a lot drawn by the county manager or his or her designee before at least three witnesses.

 4. If the project is unable to proceed without the immediate approval of a change order, the county manager has the authority to approve the change order and bring it before the board, as required, at the next regularly scheduled meeting with documented explanation of the condition.

BID PROTEST PROCEDURES

In any competitive solicitation context, no later than the business day following the day approval is granted the Purchasing Department will electronically notify a representative of each respondent of the award decision. Approval by the awarding authority does not constitute formation of a contract.

After notification of the award decision, any party with standing may challenge the decision by initiating an action in the Circuit Court of the Fourteenth Judicial Circuit in Bay County against the Bay County Board of County Commissioners. If a party intends to initiate such an action, it must electronically notify the Chief Procurement Officer and the County Attorney no later than one business day after notice of the awarding authority's decision. The notice shall contain at a minimum: the name of the Protestor; the Protestor's address and phone number; the name of the Protestor's representative; the name and bid number of the solicitation; and a brief factual summary of the basis of the challenge.

If no such notice is received by the county, the county may proceed to execute a contract to formalize the award decision. If the county does receive notice of intent to challenge the decision, the county will stay the contracting process, unless the county manager determines that the contract must proceed without delay to protect substantial interests of the county. If a party notifies the county of its intent to challenge a decision under this subsection, it must file its challenge within fourteen business days after providing its notice. If the party fails to file its action within this period, the county may proceed with the contracting process. If the party files its action, the court will uphold the county's decision unless the court determines that the awarding authority did not act in good faith and the challenger demonstrates illegality, fraud, oppression or misconduct by the county or anyone acting on the county's behalf.

No action other than an award decision can be protested, including (i) requests for quotations or requests for qualifications; (ii) rejection of some, all or parts of bids or proposals; (iii) disqualification of bidders as non-responsive or non-responsible; or (iv) recommended awards less than the mandatory bid or proposal amount.

Challenges to specifications and scope of work must be submitted prior to the solicitation submission due date or that challenge shall be waived.

This challenge must be accompanied by a protest bond of an amount equal to one (1.0) percent of the value of the solicitation, but in no case less than five hundred dollars (\$500.00) nor greater than five thousand dollars (\$5,000.00). This bond shall be in cash or by a U.S. postal service money order, certified cashier's or bank check payable to Bay County Board of County Commissioners. Failure to post such bond within two (2) business days after the notification of intent to challenge shall result in the challenge being dismissed.

The bond required by this section shall be conditioned upon the payment of all costs and charges which may be adjudged against the person filing the request for a formal hearing. If the person challenging the award prevails, the bond shall be returned to the protestor; however, if, after completion of a formal hearing in which the County prevails, the bond shall be forfeited, and the County shall be entitled to recover the costs and charges, excluding attorney's fees, of such hearing. The entire amount of the bond also shall be forfeited if the court determines that a protest was filed for frivolous or improper purpose, including, but not limited to, the purpose of harassing, causing unnecessary delay, or causing needless cost for the County or other parties.

The County will procure solid waste management services in a manner that maximizes energy and resource recovery.
The County will maintain an affirmative preference program for procurement of recovered materials identified in the EPA guidelines. The County may consider the Minimum Content Standard, the Case-by-Case Standard, or a substantially equivalent standard, as set forth in RCRA Section 6002(i)(3), as appropriate to any situation. The County may utilize the assistance of EPA Product Resource Guides located at <http://www3.epa.gov/epawaste/conserve/tools/cpg/resources.htm> for all product categories for all covered procurements.

For proposals where price is not considered in the award, profit shall be negotiated as a separate element of the price. In determining whether profit is fair and reasonable, the County shall consider the complexity of work, the risk to be borne by the contractor, the contractor's investment, the amount of subcontracting necessary, the quality of the contractor's record and past performance, and industry profit rates for the surrounding geographical area.
