Prospective Respondents

**RE: Addendum # 3 20-51 Architectural, Engineering, Geotechnical,
and Surveying Professional Services**

Please accept this as Addendum No. 3 for the above referenced solicitation.

The following question has been received. The County's answer follows in **bold**.

1. Section 8.i. All professional services to be provided under this agreement shall be performed by Professionals licensed to practice in the State of Florida and in strict compliance with the Consultant's Competitive Negotiation Act, 287.055 F.S. (CCNA). Question: Firm holds a General Contractors license in the State of Florida and provides consulting services for Project Management and Construction Management. Firm will be submitting qualifications under the Construction Engineering and Inspection Services category. Does this satisfy the Professional license requirement? **No, respondents will be required to provide professional engineering licenses for this RFQ. CEI under this solicitation is for Construction Engineering which requires a PE to sign and seal plans, inspections, reports, etc.**
2. SUBMITTAL REQUIREMENTS – Section 8. Required Additional Forms (Tab 8). Question: where can forms a. – i. be located? **Attachment 1 Required Forms beginning on page 14 of the RFQ document.**
3. For the Project History section of the submittal, does the County want 5 total projects that cover all categories applied for, or 5 projects for each category? **The County would prefer 5 projects that cover all categories applied for; however, if additional projects are required to demonstrate experience in other categories, they may be submitted (not to exceed one project per additional category).**
4. Would the County consider allowing projects completed over the last 10 years in lieu of the last 5 years in this section? **No, projects shall be completed within the last 5 years.**

5. I have a question about one of the requirements on the Project History Tab. Who exactly are you looking for when you say “project user agency”?

Project User Agency’s Representative’s name, address and phone number

Sections IV & V of 5. Project History, may potentially be the same information. Section IV being the “owner”, i.e. Bay County and Section V Project user being the specific “user” of the project, ie Facilities, Utilities, Parks, Public Works, etc. and their contact information.

9. Do these projects have any MBE/DBE Requirements or Goals? If so, what is the Targeted MBE/DBE %? Also, please specify which Tab the MBE/DBE Plan should be placed under. **Bay County does not have a MBE/DBE plan. There are no requirements for specific goals. Specific projects issued under Task Orders may have MBE/DBE goals that will need to be met to comply with Federal funding requirements. Firms that have a MBE/DBE certification shall include the certification under Tab 1 Firm Information.**
10. On the Submittal Form (pg 15), under “*Categories of Work*”, should a submitting firm check off only the categories of services that they provide as a prime consultant? Or should they also check off categories of services to be provided by sub-consultants *under* the prime consultant? **Firms should check off all categories where the firm would be providing services to the County.**
11. On page 9 of the RFQ, under “3. Personnel (Tab 3)”, Sub-bullet b. viii. A) reads: “*Provide all required licenses and certificates.*” Do licenses and certificates have to be included on each resume? Or can they be provided together at the end of this section? **Licenses and certificates should be included in Tab 3. The County does not have a preference with the specific location under Tab 3.**
12. Please confirm: Sub-Consultant Resumes be placed under *Tab 4 Sub-Consultants*, correct? **Correct.**
13. Due to the Covid-19 pandemic, would the County be willing to accept electronic submissions instead of hard copies for this RFQ? **The County will not be accepting electronic submissions at this time. However, you may obtain electronic signatures on documents if necessary.**
14. Could the County please supply the score sheet of the prior contract’s RFQ evaluation (RFQ 16-18 Civil Engineering Continuing Services)? **See attached score sheets.**

15. We would like to confirm the open terms of this contract – With no duration term given, the contract would be active and firms would be considered for an indefinite time (under the County’s discretion) as long as annual renewal requirements are submitted each year? **Per the solicitation documents Attachment 2 Sample Contract: 5. Effective Date and Time of Performance This Contract takes effect on the date of execution by the County and shall be valid for a period of three (3) years with two (2) optional one-year renewals.**

All respondents shall acknowledge receipt of this addendum by signing and submitting, with their submittal, the addendum acknowledgement form included in the RFP package.

Regards,

Wendi Nation
Purchasing Director
