Prospective Respondents

RE: Addendum #1 22-06 Bay County Emergency Radio 911 Towers Generators

Please accept this as Addendum No. 1 for the above referenced solicitation.

The following questions have been received. The County's answers follow in **bold**.

Regards,

Scott Nabers
Contracts Administrator

- 1) Scope on sheet 32 of 102 it states "This is a grant fund project. It will be split into two phases. Phase I will be electrical design. Bay County has to submit design to the State of Florida for approval and then Phase II will be construction after approval. Design shall be 100 calendar days and Construction shall be 220 calendar days after State approval of plans. Contractor shall provide all design for permitting and for design approval to the State of Florida Division of Emergency Management. Bay County will have to provide access to all locations." Are you looking for only Phase I of this scope or someone to do both phases? What are the requirements in "electrical design"? Hand Sketch or Stamped Engineered drawings?
 - **Both phases are part of this bid. Electrical Design will be necessary drawings to pull permits at all locations.**
- 2) Scope mentions "This is a grant fund project. It will be split into two phases. Phase I will be electrical design. Bay County has to submit design to the State of Florida for approval and then Phase II will be construction after approval." You looking for someone to include an Stamped Engineered Electrical Design as well as include the Installation of the generators?

- **This is one project and it includes design and construction. Construction shall not start until after we have received approval from the State. Vendor need to provide necessary drawing to pull permits.**
- 3) Are there possibly any drawings for this bid project (Bay County Emergency Radio 911 Towers Generators) ? If so please post them on the site, as they are not included in any of the information.
- **Bay County has provided all the information we have pertaining to existing 911 towers, we do not have any additional plans.**
