Prospective Respondents

RE: Addendum #1 22-21 Military Point AWWTP Pumps and Motors

Please accept this as Addendum No. 1 for the above referenced solicitation.

The following questions have been received. The County's answers follow in **bold**.

Regards,

Scott Nabers
Contracts Administrator

- 1) The ITB NO. 22-21 states on page 3, under qualifications, "The Contractors shall be Florida licensed Electrical Contractors." Please consider a licensed well contractor and/or a licensed GC to apply for this job. **General Contractors in attendance of the mandatory site visit will be allowed to bid the project. However, this project does not require a general contractor license as a building permit is not required. Due to the critical nature of the equipment and inherent hazards, a licensed electrical contractor or subcontractor will be required for the project.**
- 2) Could you please provide a list of all pumps and motors in service with serial numbers, sizes and other information if possible? **The serial numbers and other information were to be collected during the mandatory site visit.**
- 3) This project only involves the direct replacement of existing motor equipment, will a Contractor's License be necessary in order to bid this project? **General Contractors in attendance of the mandatory site visit will be allowed to bid the project. However, this project does not require a general contractor license as a building permit is not required. Due to the critical**

nature of the equipment and inherent hazards, a licensed electrical contractor or subcontractor will be required for the project.

- 4) Existing pump locations are being enclosed inside the new building structure. Will adequate provisions be made to pull pumps up through the roof of the new building? **Yes.**
- 5) Will adequate access and surface preparation to the building site be provided for a long reach crane? **Yes.**
